MagTube & ForceTube

Gun Stock Setup Instruction

Hello, fellow gamer!

If you are reading this, you laid your hands on one of our Gun Stocks.

MagTube Rifle, with Classic Stock.

Or

ForceTube Rifle, with Haptic Recoil Stock.

For both of them, you will use the same following steps to build your Gun Stock. The images represent a classic Stock, but this is the same for a ForceTube Haptic Stock.

We invite you to join our **Discord** community for any question or directly contact us through our **support service** on **our website**.

Mounting your MagTube / ForceTube Gun Stock should take 1h30m.

For video setup,

you can check our YouTube Playlists.

First, make sure you work in a clear area and be very careful, some parts can get lost easily.

Thank you for choosing the best Virtual Reality stock rifle solution. But don't take our words for it, try it. And most importantly, enjoy your games!

Bonjour, camarade joueur !

Si tu lis ceci, c'est que tu as mis la main sur l'un de nos fusils pour la Réalité Virtuelle.

Fusil MagTube, avec crosse classique.

ou

Fusil ForceTube, avec crosse haptique.

Pour les deux, tu suivras les mêmes étapes pour construire ton fusil. Les images représentent une crosse classique, mais c'est la même chose pour une crosse haptique ForceTube.

Nous t'invitons à rejoindre notre communauté **Discord** pour toute question ou à nous contacter directement via notre **service d'assistance** sur notre **site web**.

Le montage de ton fusil MagTube / ForceTube devrait prendre 1h30.

Pour l'installation en vidéo,

tu peux consulter nos playlists sur YouTube.

Avant tout, assure-toi de travailler dans une zone dégagée et sois très prudent, certaines pièces peuvent se perdre facilement.

Merci d'avoir choisi la meilleure solution de fusil pour Réalité Virtuelle. Mais ne nous fais pas confiance sur parole, essaie-le. Et surtout, profite de tes jeux !

Bag n°3

									
x1	x1	x1	x1	x2	x2	x2	x2	x1	x2
Ring	Wedge	Connecti on with internal notches	T-noched connecti on	Hex screw	Butterfly	O'ring	Nut	Rubber washer	Hex washer

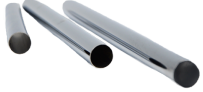

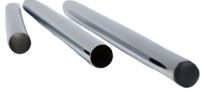

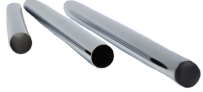

Bag n°4

	
x1	x1
Hex Key 0,4cm	Hex Key 0,25cm

MagTube - Rest of the box

							
x1	x1	x1	x1	x2	x2	x1	x1
Tube 130mm chrome or carbon	Tube 200mm chrome or carbon	Tube 250mm chrome or carbon	1 point or 2 points sling	Left & Right MagCups	Magnetic Supports	Classic Stock	Optional : Bipod

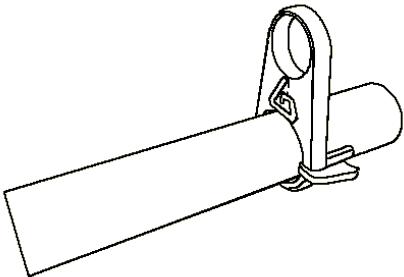

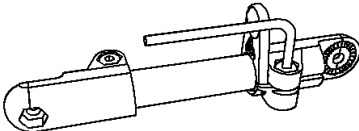

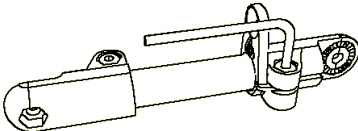

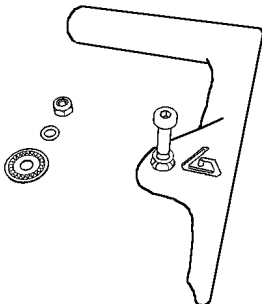

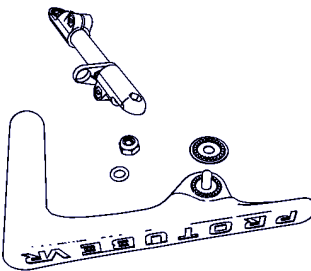

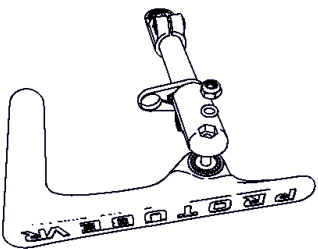

ForceTube - Rest of the box

					
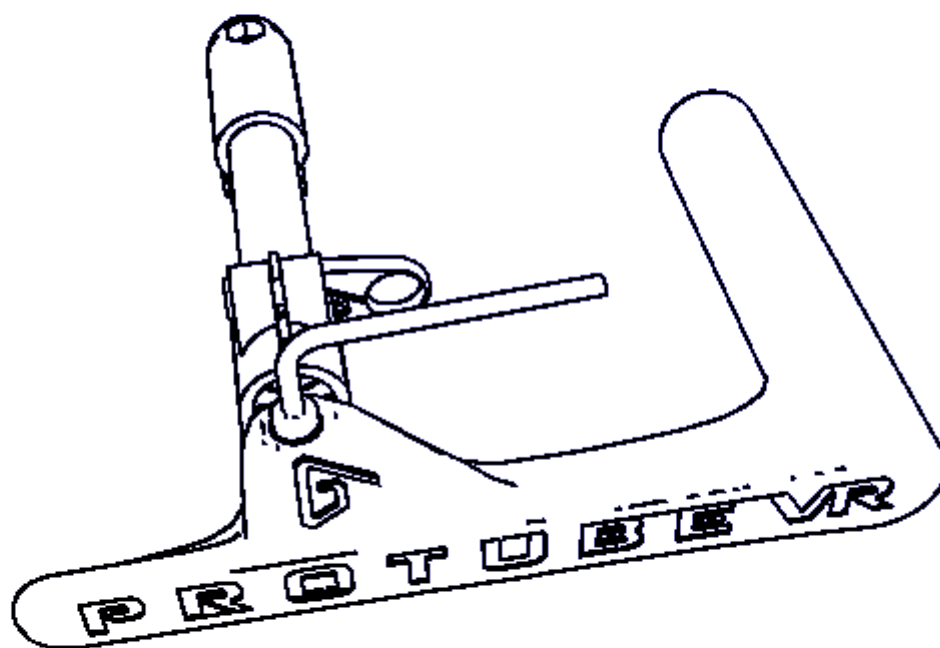

x1	x1	x1	x1	x2	x2
Tube 130mm chrome or carbon	Tube 200mm chrome or carbon	Tube 250mm chrome or carbon	One Point or Two Points sling	Left & Right MagCups	Magnetic Support

					
x1	x1	x1	x1		
Haptic ForceTube Stock	Bluetooth USB Dongle	USB-C Charging cable	Optional : Bipod		

Step 1: Gun Stock

You will need: bag n°1, smallest tube and rifle stock.

		
1.a - Put the wedge on the ring and put them both on the smallest tube. (This step is not needed if you have a ForceTube)	1.b - Put the two connections with internal notches on each part of the small tube and screw them with the Hex key.	1.c - Apply some oil all around the notches on the connection which is the nearest from the ring.
		
1.d - Put one O'ring on the 20mm screw, slot them both into the hole provided in the stock.	1.e - Then slide the notched washer (the notches have to be facing the same way) and the previously oiled connection over the screw.	1.f - Attach the screw securing the stock and the connection with one O'ring and the nut.

1.g - Screw all the pieces together taking care not to over tighten. You must be still able to rotate the stock by force.

In the next steps, you will need the magnetic supports. They are usually magnetically attached to the MagCups. The magnets are quite strong when trying to detach them with hands, but do not be afraid of breaking them, they are made to resist this step. You just need a little force to separate them.
