PROTUBEVR

PROTAS JOYSTICK

Hello, fellow gamer!

If you are reading this, you are willing to increase your comfort while playing flying games or simulators. And we will help you to do it!

The ProTas allows you to hold your controllers (and its MagCups) as if you were in a spaceship or airplane or even a mech.

We invite you to join our [Discord](#) community for any question or directly contact us through our [support service on our website](#).

Installing your ProTas should take 3 minutes.

For video setup,

[you can check our YouTube Playlists](#).

First, make sure you work in a clear area and be very careful. Some parts can get lost easily.

Bonjour, camarade joueur !

Si tu lis ceci, c'est que tu es prêt à améliorer ton confort en jouant à des jeux ou simulateurs de vol. Et nous allons t'aider à le faire !

Le ProTas te permet de tenir tes manettes (et ses MagCups) comme si tu étais dans un vaisseau spatial, un avion ou même un méca.

Nous t'invitons à rejoindre notre communauté [Discord](#) pour toute question ou à nous contacter directement via notre [service d'assistance](#) sur notre [site web](#).

L'installation de ton ProTas devrait prendre 3 minutes.

Pour l'installation en vidéo,

[tu peux consulter nos playlists sur YouTube](#).

Tout d'abord, assure toi de travailler dans une zone dégagée et sois très prudent. Certaines pièces peuvent se perdre facilement.

Assemble the ProTas and the MagCup using the magnets on each parts.

Adjust the magnetic bracket to make it comfortable when you play (you can always re-adjust it later).

		
Tighten the screw with the provided Allen key.	Unscratch the straps and set them apart from each sides, and remove the plastic protection from the pad.	Attach the ProTas to your armchair with the pad and the straps (for more stability), or on your desk with the sticky pad.
		
	Insert your controller into the magnetic cup and play.	

Tips

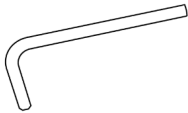

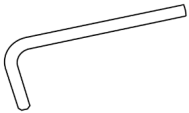

- You can play games feeling like in a cockpit and take off the MagCup with the controller at any time if you need to.
- You can clean up the stick pad with water if it is dusty. That way, it will be good as new and sticky again.

- The ProTas can be used on any support that you like (desk, coffee table...).

Mounting

Assemble the ProTas and the MagCup using the magnets on each part.

Adjust the magnetic bracket to make it comfortable when you play (you can always re-adjust it later).

Tighten the screw with the provided Allen key.

Release the straps and set them apart from each side, and remove the plastic protection from the pad.

Attach the ProTas to your armchair with the pad and the straps (for more stability), or on your desk with the sticky pad.

Insert your controller into the magnetic cup and play.

Tips

- You can play games feeling like in a cockpit and take off the cup with the controller at any time if you need to. A simple wrist rotation suffice to detach the magnetic cup.

- You can clean up the sticky pad with water if it is dusty. That way, once well dried, it will be good as new and sticky again.
- The ProTas can be used on any support that you like (desk, coffee table, chair with arms, etc.).
