

Index Magcup Setup EN

Index MagCups Setup

Hello, fellow gamer!

If you are reading this, you got your hands on the Index MagCups, for your GunStock (MagTube, ForceTube) or Joystick (ProTas).

This is the new version. You just have to clip/unclip it, instead of restrictive manipulations with ZipTie.

We invite you to join our [Discord](#) community for any questions or directly contact us through our [support service](#) on [our website](#).

🕒 Installing your Index MagCups should take 3 minutes.

For video setup, [you can check our YouTube Playlists](#).

Feel the game!

Parts list

Bag N°4

X1

Hex Key 0,4cm

X1

Hex Key 0,25cm

Rest of the Box

X1

Pair of Index MagCups (left and right)

Mounting

Remove the controller's Straps by pressing the spring button.

Optional but recommended - You can add a wrist straps. Just make sure to put the wrist strap's sling between the plastic part and the rubber part.

Put the MagCup on the rounded part of the controller. Make sure to lay the back part first (magnet side) and then clip the front part with the two little bumps (spring button side).

Slide the MagCup to the hole and align it with the spring button. Put back the string of the hand strap by pressing the spring button.

Your Valve Index MagCup is now ready to use. Do this with the other cup. Enjoy your games with your Index Magcups.

We recommend you to keep the MagCups on the controllers at all time. They should not bother you when you don't need them.

Removing

Remove the controller's Straps.

Push on the two sides of the MagCup to slide it on the round part of the controller. Make sure to push out the sides enough, otherwise you may scratch your controllers.

Unclip the MagCup by pushing on the two little bumps.

Put back the string of the controller's hand strap by pushing the spring button.
